

## **National Patient Safety Suite – Continuous Professional Development (CPD)**

NHS Professionals can offer all existing bank workers with free unlimited access to the National Patient Safety Suite developed by Virtual College in partnership with NHS England. These online training resources are relevant to healthcare professionals working in a range of settings.

Each online course has CPD accreditation therefore they are ideal for professional development. On completion of each course you will be able to print off a self-assessment record which can be used as evidence of CPD activity relevant to your professional registration.

The National Patient Safety Suite currently offers access to the e-learning courses listed below.

- The safe use of insulin
- The safe management of hypoglycaemia
- The safe use of intravenous insulin infusion
- The safe use of non-insulin therapies for diabetes
- The safe use of insulin syringes, pen devices, pumps and sharps
- The safe management of diabetes during end of life care
- Omitted and delayed medicines in hospitals
- Safe management of the diabetic foot
- Safe management of people with diabetes, dementia, depression and severe mental illness
- Managing diabetes in pregnancy
- Female genital mutilation – recognising and preventing FGM
- An overview of medical terminology
- Get moving, get healthy
- Caring for children and young people with diabetes mellitus
- Tissue viability
- Basic life support (clinical)
- Awareness of type 1 diabetes
