

The Safe Use of Insulin Syringes, Pen Devices, Pumps and Sharps

Increase your understanding and avoid common errors.
Do the course. Save a life.

Who is this course for?

This course is aimed at all levels of healthcare professionals, who in their line of work may be expected to handle or administer insulin using an insulin syringe, insulin pen device or insulin pump or sharp.

Course details

This course has been developed to raise awareness of the different devices that are available to ensure that the right insulin, in the right dose, is administered in the right way and at the right time.
